

Enzymes – what is the difference?

“Not all formulas are created equal”

1. IF ENZYME FORMULAS CONTAIN BACTERIA: THIS MEANS THEY HAVE A LIMITED SHELF LIFE.

Because the bacteria are live the formulas are already “dying.” The result; it may be only be working at 1% efficiency but never at a 100%. Why pay for something that only works partially?

2. UNKNOWN BACTERIUM:

Have you ever seen a crop die and don't know why? What if an enzyme formula contains unknown bacteria – it may be the bad kind? Why pay good money for that?

3. WHY PAY ANY MONEY FOR INCONSISTENT PRODUCT WITH NO STANDARDS?

If you see “sludge in the bottle” it is a good indication it's unrefined and possibly hazardous to your crop.

4. LIKE TO USE H₂O₂?

Not with formulas containing bacteria – it could render them “inactive.”

5. YOU ONLY GET WHAT YOU PAY FOR...

The bad taste of a terrible product lingers long after a “sweet price” on poor quality.

6. WHY INTRODUCE UNKNOWN BACTERIA INTO YOUR BALANCED GROWING ENVIRONMENT?

Hygrozyme is bacteria free – no surprises in the bottle. Unlimited shelf life. The formula is consistent and 100% effective guaranteed. You get your moneys worth – every penny.

By the way Hygrozyme is compatible for use with H₂O₂, all fertilization programs, nutrients and rooting compounds.

Nothing beats Hygrozyme quality and results

“Revolutionary Hygrozyme may well be the greatest breakthrough in horticulture in the last decade.”

Our Secret Formula cannot be reverse engineered, so don't be fooled, we may be imitated, but NEVER duplicated.

HYGROZYME™

Horticultural Enzymatic Formula

UNEQUALLED INDUSTRY ACCREDITATION

	OMRI™ Listed <small>Organic Materials Review Institute</small>		Medical Grade Enzymatic Formula
	QMI REGISTERED		BACTERIA FREE — Why would you introduce unknown bacteria into a sterile growing system?
	LABORATORY / FIELD TESTED PROVEN EFFECTIVE BY REAL PhD's		UNLIMITED PRODUCT STABILITY AND SHELF LIFE

Product sold outside Canada as HYGROZYME™

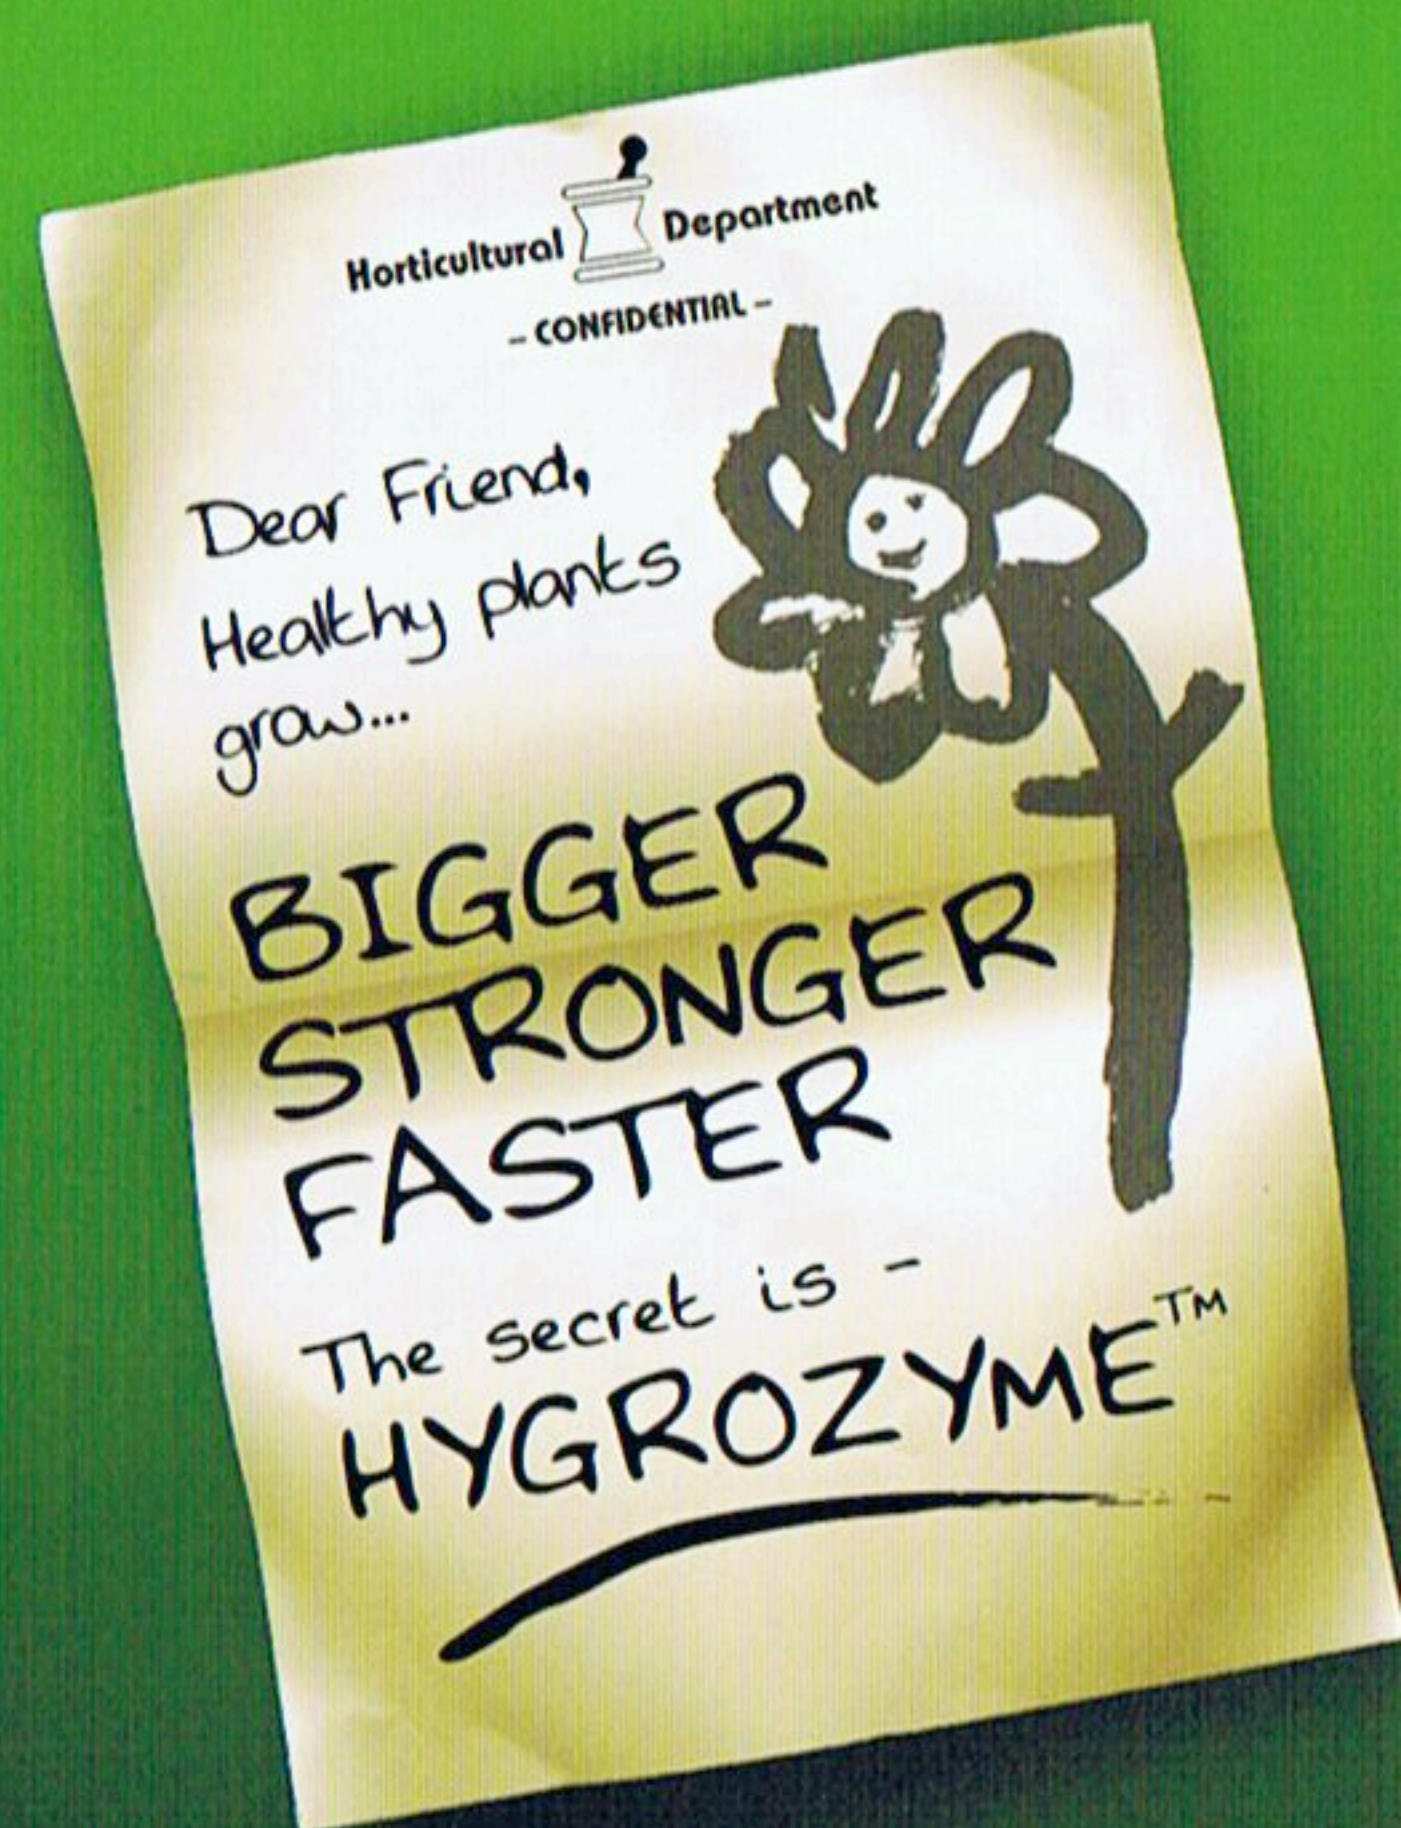

Product sold in Canada as GROZYME™

Sipco Industries Ltd.
MADE IN CANADA

The World's Premiere Horticultural Enzymatic Formula

- ✓ THE CLEANER SOLUTION
- ✓ GUARANTEED RESULTS
- ✓ SECRET ENZYME FORMULA
- ✓ BACTERIA FREE
